

Pros2Plan is an Oracle partner that specializes in helping companies augment their internal project teams when they have gaps of experienced talent on planned IT initiatives. Our “sweet spot” is helping organizations source the hard-to-find skills when they need not only Oracle application talent but also strong business process domain knowledge. If your organization needs 1 resource or team of talent, Pros2Plan can deliver because of our Oracle practice focus and our global reach.

P2P Provides Oracle Resources Across Your Enterprise
